DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David T. Yang on 07 February 2007.

The application has been amended as follows:

Please re-enter claims 7, 8, 9, 10, 25, 26, 32 and 33 into the case.

Please amend Claim 32 to read "A computer readable medium encoded with a computer executable program for executing the digital mixing method according to claim 25."

Please amend Claim 33 to read "A computer readable medium encoded with a computer executable program for executing the digital mixing method according to claim 26."

The following is an examiner's statement of reasons for allowance:

Regarding Claims 1 and 22, in addition to the persuasive remarks applicant has submitted, the claims recite "wherein the second control signal is transferred from said second communication interface of said engine section to said first communication interface of said console section and the mixing control signal is transferred from said first communication interface of said console section to said second communication interface of said engine section." This feature is not taught, suggested, implied, nor made obvious by East.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
